Good morning Marc,

On July 23, 2021, the Underground Injection Control (UIC) Program received a permit application from Penneco Environmental Solutions, LLC, for a Class II-D UIC commercial facility. On August 5, 2021, EPA deemed the application complete and is now under technical review. Please contact Ryan Hancharick (215-814-3278) or myself if you have any questions or need additional information regarding the UIC permitting process. Thank you.

Dave
